

Shift Managers

Norbar Torque Tools Ltd, the world leading torque tool manufacturer has opportunities for 2 experienced day shift managers to support both our Calibration Laboratory and our Torque Wrench Assembly area.

Working to stringent standards, our assembly operatives focus on producing high quality torque wrenches for our domestic and professional customers while our laboratory technicians carry out UKAS accredited calibrations of electronic and mechanical torque measurement devices.

The manager's primary role will focus on safety, quality, developing people, driving improvement and reducing waste, to delight our customers with innovative precision tools, delivered on-time.

Applications will be considered from experienced people managers preferably from an engineering/technical background.

Proven problem-solving ability is essential together with excellent IT skills plus experience of contemporary manufacturing practices and business improvement techniques.

In return we can offer an attractive salary package commensurate with previous experience.

Norbar also offers a non-guaranteed profit related bonus, generous contributory pension scheme, life assurance, an award winning restaurant plus other lifestyle benefits.

Closing date for applications: Friday 5 November 2021

We reserve the right to interview and appoint before the closing date
