

Quality Engineer

Norbar Torque Tools Ltd, the world leading torque tool manufacturer have a vacancy for a Quality Engineer to join their team.

Norbar requires their Quality Engineer to have an ONC/City & Guilds / NVQ 2-2 in Mechanical Engineering and use this to proactively identify product and process improvements. Working on your own initiative or against a plan, you will sample processes for conformance, identify waste & use Quality tools to assess the data, driving improvements in Norbar's quality standards. Excellent communication skills will be required to report out findings. A good understanding of GD&T coupled with a familiarisation of CNC CMM operation would be advantageous. QEs will be conversant in various statistical tools and techniques, will have managed PPAP & performed R&R / MSA studies. An IRCA Lead auditor attainment &/or a member of the CQI would be preferred.

In return for a 38½ hour week, we can offer a competitive salary in the range £40,000-£45,000.

Norbar also offers a non-guaranteed profit related bonus, a generous contributory pension scheme, life assurance and an award-winning restaurant.

Closing date for applications: Wednesday 15 June 2022

We reserve the right to interview and appoint before the closing date
