

Technical Support Engineer – Midlands & Central Region

Norbar Torque Tools Ltd, the world leading torque tool manufacturer has a vacancy for an experienced Technical Support Engineer to join our experienced and dynamic UK Sales Team.

Responsible to the Regional Business Manager, you will be required to support the sales strategy by promoting Brand awareness to key end users and OEMs on your territory through engineered solutions, product demonstrations and attendance at exhibitions and seminars.

Maintaining and developing a detailed understanding of new and existing Norbar products is essential and therefore you will have previous experience within the UK Tool Industry, preferably in a related industry, or in a field sales role. A strong engineering background in one of the following would be a significant benefit; Oil and Gas, Renewables / Wind, Manufacturing, Power Generation, Aerospace or Transportation.

You will ideally be based within the region and work from home. In return we can offer a competitive starting salary plus lease car.

Norbar also offers a non-guaranteed profit related bonus, contributory pension scheme, life assurance and other lifestyle benefits.

Closing date for applications: Friday 23 September 2022

We reserve the right to interview and appoint before the closing date
