21st June 2023

Dear Jen,

I am writing to thank you for your most generous donation on behalf of Norbar. Your generosity supports work that saves lives and helps people locally through incredibly difficult times towards more promising futures.

In the last year, Restore has been able to support almost 500 people through therapeutic recovery group activities, in total over 6,000 sessions. In parallel, 400 individuals have received coaching support and that has helped 29% move into employment and a further 40% have progressed into volunteering or training.

Restore helps individuals to define their own goals, reach for them, and restore their lives. This also positively impacts thousands of lives within the community, through those connected to our members and service users, be they their families, friends, neighbours or colleagues. This impact would not be possible without the generosity of those supporting Restore.

Thank you very much once again for your support.
